Standards

ASTM C87, ASTM C109, ASTM C185, ASTM C230, ASTM C243, ASTM C348, AASHTO T71, AASHTO T106, AASHTO T137

Further Information

The Flow Table is designed in accordance with ASTM and AASHTO specifications for use in determining the flow of hydraulic cement mortars and cement pastes.

In operation the test specimen is molded on the table to a specified volume and shape. With the mold removed, the table is dropped a specified number of times. Upon completion of the test, the flow, (or increase in average diameter) is measured.
